

IMPORTANT NOTE:
The Product Disclosure Sheet (PDS) provides some of the key information that you should consider before you participate in a medical takaful certificate that best meet your needs. You should read the Certificate Wording carefully for full details on your coverage.

FIND OUT MORE

Step 1 Is this takaful certificate right for you?

This takaful certificate covers hospitalisation and surgical expenses ("H&S") incurred due to illnesses covered under the certificate until 85 age next birthday("ANB").

Your takaful contributions will be pooled with other takaful participants' contributions to pay claims. If the total claims paid out from the Takaful Pool is high, the takaful contribution for all participants in the same Takaful Pool may increase, including your takaful contribution **even if you did not make a claim**.

Step 2 Does it meet your needs?

What is covered?

- ✓ Hospital Room & Board : RM[*your selected Room & Board*]
- ✓ Surgical expenses : As charged, subject to RM[*2,000/3,000*]
Deductible for any one disability
- ✓ Out-patient Cancer Treatment : As charged
- ✓ Out-patient Kidney Dialysis Treatment : As charged

Benefits payable are on cashless basis and subject to:

- ✓ Annual limit : RM[*Annual Limit*]
- ✓ Lifetime limit : No lifetime limit

What is not covered?

- ✗ Any claim caused by pre-existing illness.
- ✗ Any claim due to specified illnesses occurring during the first 120 days of continuous cover.
- ✗ Pregnancy or childbirth.
- ✗ Any medical care or treatment received primarily for experimental or investigative purposes.

The above list is non-exhaustive. For more details, please refer to the Appendix by scanning the QR code above and refer to the Certificate Wording for full information on what is and is not covered.

Step 3 Can you afford the increase in takaful contribution over time?

Takaful Contribution Projection Table

Age	Current [<i>monthly/yearly</i>] takaful contribution upon attained age (RM)	Estimated [<i>monthly/yearly</i>] takaful contribution		Over the long term, you can reduce takaful contribution payable by choosing plans with: a) A higher Deductible; or b) A lower annual limit.
		Based on medical inflation of 7% per annum ¹ (RM)	Based on medical inflation of 10% per annum (RM)	
[Age]	[<i>your contribution</i>]	-	-	
[Age]	[<i>your contribution</i>]	[a]	[b]	
[Age]	[<i>your contribution</i>]	[a]	[b]	
[Age]	[<i>your contribution</i>]	[a]	[b]	

[The takaful contribution will be based on your child's/ your attained age and selected plan. Please refer to the takaful contribution table in the Appendix]

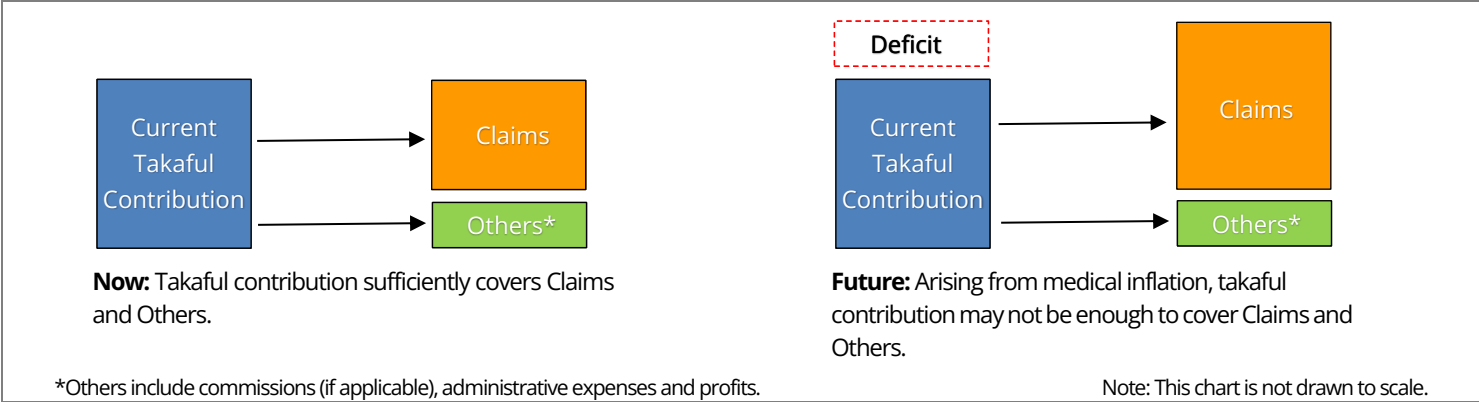

[a] Assuming your takaful contribution increases by 7% every year due to medical inflation.

[b] Assuming your takaful contribution increases by 10% every year due to medical inflation.

- The projection above is solely for **illustration purposes only**.
- Takaful contributions are affected by both the increase in treatment costs and the increased use of healthcare services by takaful participants. This can result in actual medical inflation rate being higher or lower than the above illustration. We are undertaking the necessary cost containment measures in co-operation with other stakeholders to manage takaful contribution increases over time.
- Bulk of takaful contributions goes to claims. On industry average, for every RM1.00 of takaful contribution paid, RM0.72² is allocated to pay claims. The remainder goes to pay administrative expenses and profits of the takaful operators.

¹ This is the year-on-year increase in the average treatment cost as billed by hospitals to the insurance and takaful industry from years 2020 to 2023.

² This is based on insurance and takaful industry average data from years 2021 to 2023. The actual experience of the product you purchase may differ from the industry average.

Step 4 What else should you be aware of?

- You must answer the questions that we ask fully and accurately. Failure to take reasonable care in answering the questions may result in rejection of your claim or termination of your takaful certificate.
- If you decide you do not want the takaful certificate within 15 calendar days after the takaful certificate has been delivered to you, you can contact us to cancel your takaful certificate and receive a full refund (less any medical examination expenses incurred).
- Your coverage will only start 30 calendar days after the effective date or the reinstatement date of the takaful certificate, whichever is later, for illness other than specified illnesses. For specified illnesses, your coverage will only start 120 calendar days after the effective date or the reinstatement date of the takaful certificate, whichever is later.
- The management fees³ you have to pay are RM[35% of your contribution] or 35% of the annual takaful contributions, which are allocated entirely to administrative expenses. The overall details can be found in the Takaful Contribution, Fees & Charges table in the Appendix by scanning the above QR code.

³ These figures are based on the current takaful contribution upon attained age.

The above list is non-exhaustive. Please refer to the Certificate Wording for the full details on the key terms and conditions.
